## ABSTRACT

[040]           A printmode for an inkjet printer including a plurality of print nozzles  
5   and an edge guide projecting into a printzone into which at least one of the  
plurality of print nozzles may be transported for deposition of a fluid onto a print  
media, the printmode including a printmask defining a print disable zone  
corresponding to a pre-selected area of the printzone that includes an area of the  
edge guide that projects into the printzone.
